

INSTRUCTIONS TO AUTHORS

SELÇUK ÜNİVERSİTESİ TIP FAKÜLTESİ DERGİSİ (S.Ü. Tıp Fak. Derg.) is issued quarterly and publishes articles on original research, clinical observations, and reviews of medical subjects and related fields in Turkish or English. It is expected that all manuscripts will be reviewed and approved for the submission by the department head or the editorial committee. Manuscripts that are not accepted will be returned back to senior author. Statements and opinions expressed in the articles and communications therein are those of the author(s) and not necessarily of the S.Ü. Tıp Fak. Derg. and the S.Ü. Tıp Fak. Derg. disclaim any responsibility or liability for such material. Also, S.Ü. Tıp Fak. Derg. does not guarantee, warrant, or endorse an product or service advertised in this publication, and does not guarantee any claim made by the manufacturer of such product or service.

The manuscripts should be forwarded in duplicate copies, including tables and glossy prints to: Yayın Kurulu Sekreterliği, Tıp Fakültesi, 42080 Konya/Turkey.

All manuscripts must be accompanied by the following written statement, signed by all authors: "The undersigned authors transfer all copyright ownership of the manuscript entitled (title of article) to Selçuk University Faculty of Medicine. The undersigned authors warrant that the article is original, is not under consideration by another journal, and has not been previously published. I sign for and accept responsibility for releasing this material on behalf of any and all coauthor." Authors will be consulted when possible regarding republication of their material.

PREPARATION OF MANUSCRIPTS

Format: All material should be typed on white bond paper 22x28 cm (8x11 in). If word processing is used, letter quality printing, rather than dot-matrix, is preferred. Double-spacing should be used throughout, including title page, abstract, text, acknowledgement, references, tables and legends for illustrations.

Title page: Titles should be concise and relevant to content. On title page, give author's full names and proofs will be sent to, reprint request author's name and address, and name of institution(s) where work was done; omit departmental appointments. Listed authors should be limited to six, all of whom have contributed to the study and manuscript preparation, are familiar with its substance, and are able to defend its conclusions, a list including more than six authors should be justified to the editors.

Abstract: On a separate sheet include a brief summation of 150 words or less, to appear immediately after the title page. For manuscripts submitted in Turkish, English version of the title and abstract should be accompanied immediately after the Turkish written abstract. English abstract should be concise and comprehensible to the reader. Key word, limited to ten words should be relevant to the content of the manuscript, and should be given in English after the abstract.

Text: Text should be consisted of introduction, material and methods, results and discussion (which can be combined if so desired), case reports should include introduction, presentation of case(s) and discussion. Metric system will be used throughout. Conversion tables are available (see JAMA 1986; 255: 2329-39 or Ann Intern Med 1987; 106: 114-29). Names of chemical compounds-not formulas should be given. Proprietary names may be given when unavoidable.

Acknowledgement: Can be added to the end of the text. Acknowledgement can include contributions that need acknowledging but do not justify authorship, acknowledgements of financial and material support, specifying the nature of support.

References: They must be numbered consecutively according to their citation in the text. Do not repeat references; cite the number of reference previously cited. Abbreviations for journals should be those listed in Index Medicus. List all authors unless more than six (6), in which case,

list first six (6) and then "et al". Unpublished observations, written personal communications, not oral, can be inserted in the text within parenthesis. The following gave the examples of the basic style.

1. Goate AM, Haynes AR, Owen MJ, Farral M, James LA, Lai LY, et al. Predisposing focus for Alzheimer's disease on chromonosem 21. *Lancet* 1989; 1: 352-5.
2. Ingbar SH, Woeber KA. Regulation of thyroid function. In: Williams WA, Sodeman FB, eds. *Textbook of endocrinology*. Philadelphia: WB Saunders, 1974: 115-8.

Published Proceedings Paper

1. DuPont B. Bone marrow transplantation in severe combined immunodeficiency with an unrelated MLC compatible donor. In: White HJ, Smith R, eds. *Proceedings of the third annual meeting of the International Society for Experimental Hematology*. Houston: International Society for Experimental Hematology, 1974: 44-6.

Tables: Each table should be typed identified by arabic numerals, with a title, on a separate sheet of paper, with each line, including headings, concise description, and double spaced. Continuations should be on a second sheet with all headings, repeated. Each should have short or abbreviated heading, explanatory matter should be placed in footnotes. All nonstandard abbreviations that are used in each table should be explained in the footnotes. If a table or any data therein have been previously published a footnote must give full credit and the written permission of the original source must be sent.

Figures and illustrations, and legends for illustrations: Figures and illustrations should be numbered sequentially according to the order in which they have been first cited in the text. If a figure has been published previously, original source and the written permission from the copyright holder should be submitted.

Legends for figures and illustrations should be typed and double spaced on a separate sheet, with arabic numerals corresponding to the illustrations. When symbols, arrows, numbers or letters are used to identify parts of the illustrations each one should be clearly explained in the legend.

Each figures and illustrations must be identified on its back with a pencil lightly indicating the figure or illustration number. Author's last names should be indicated on top. The prints and illustrations should not be stapled, clipped together, mounted, or trimmed.

Illustrations should be drawn on a glossy paper with india-ink or typographic (press-apply) lettering. Typewritten or freehand lettering is unacceptable. All lettering must be done professionally and should be in proportion to the drawing, graph, or photograph. X-ray films, ECG strips etc should not be send. Colored illustrations or prints cannot be accepted. Black and white prints should be on a gloss paper.

Investigations involving human subjects require a specific statement in the "Methods" section that an appropriate institutional or regional regulations are followed. Patients names, initials or hospital number, especially in any illustrative material should not be used. Permission from the patient, or parent or care taker of a child, is required for publication of recognizable likenesses, when reporting experiments on animals institution's or the National Research Council's guide for, or an national law on the care and use of laboratory animals should be followed.

For further informations, explanations and details please refer to "Uniform requirements for Manuscripts Submitted to biomedical Journals" (Vancouver style) *BMJ* 1991; 302: 335-41).
